The great object of this publication is, to place before practical men and students such an amount of theoretical and scientific knowledge, in a condensed form, as shall enable them to work to the best advantage, and to avoid those mistakes which they might otherwise commit. The amount of useful information thus brought together, is almost beyond a precedent in such works. Indeed there is hardly any subject within its range which is not cated with such clearness and precision, that even man of the most ordinary capacity cannot fail of understanding, and thus learning from it much which it is importrnt for him to know.

From the annexed list of the principal authors

From the annexed list of the principal authors and subject comprised in this work it is self-evident, that all citizens engaged in the practical and useful arts, etc., may derive essential advantages from the possession and study of this publication, The following may be especially designated:

Millwrights. Moulder and Boiler Makers. Artificers in Brass, Copper, and Tin. Cutlers, and Workers of Steel in general.

Workers in Ivory, Bone, and Horn.
Civil Engineers, Railway Contractors, and Contractors for Earth-Work, and Masonry of every

description.

Architects and Bridge Builders
Builders, Master Masons, and Bricklayers.
Chip Bnilders, Masters of Vessels, Ship Carpenters, and others connected with Building and Docking Ships.
Block and Pump Makers.

The publishers have expended a large sum of money to get original drawings of machinery in practical use in this country, and have procured almost every work on the sudject, whether published in England, France, or Germany, the most essential parts of which being comprised in this Dictionary, render it as perfect and comprehen sive as possible. The publishers have endeavored to use great economy in type, so that each page of the work contains at least four times the number of words found in ordinary pages of the same size. This has also secured to each plate working-drawngs of ample size and clearness, so that a Mechanic may construct accurately any machine described.
The publishers are, in short determined, regardless of cost, to make the work as complete as possible; and it is hoped every one desirous to obtain the work will procure it as issued in numbers, and thus encourage the enterprise.

The whole work will be issued in semi-monthly numbers at 25 cents per number, and completed within the turrent year, 1850. A liberal discount will be made to agents.

Any one remitting the publishers \$10 in advance shall receive the work through the post office free Notice to Proprietors of Newspapers throughout th United States and Canada.

If the foregoing advertisement is inserted five times durit; the year, and the paper containing it sent to us, a copy of the work will be sent gratis in payment.

American Statistics. A short time past we published some statistics relative to the number of soldiers supplied from the different States to the revolutionary war. De Bow's Commercial Review gives some tables re-lative to this, and other subjects of equal interest,

which we copy.

1. The number of soldiers furnished by the American States during the revolution, and the population of each State in 1790 and in 1847.

2. Principal battles of the revolution, their several dates, commanders-in-chief, and losses or analysis. 3. Amount of continental money issued to sup

S. MAUPIN, M. D.,

THIRD ANNUAL EXHIBITION

Maryland State Agricultural Society

Meryland State Agricultural Society.

A PPEAL TO THE MEMBERS OF THE MARYLAND STATE AGRICULTURAL SOCIETY.—We desire that you should bear in mind, that on the 23d, 24th, and 25th days of October, your Society will hold its annual Exhibition and Fair at the city of Baltimore: and we appeal to you, one and all, to bring for exhibition thereat portions of your stock, the products of your orchards, and of your gardens. Don't presume that any animal, or product, you may own is inferior to others that will be here, and be thus deterred from bringing them, as it is only by comparison that the relative merits of any thing can be determined. The safer presumption for you to arrive at, will be that what you have as as good, if not better than that of others, and that it behooves you to gallantly enter the list of competition: if defeated honorably, and the high character of the judges is a guarantee that you can be defeated in no other way, you will enjoy the luxury of knowing that others were more entitled to success than yourself.

iled to success than yourself.

And while we address you to bring such articles And while we address you to bring such articles as are properly in your department, we crave permission to solicit your interest, to induce your wires and daughters to bring whatever appertains to their peculiar departments, as embrodery, household manufactures, the products of the dairy and of the poultry yard, preserves, domestic wines, confections, and, above all things, to come themselves, as without woman, and the beautiful elaborations of her aste and genius, no display can be perfect.

To the Manufacturers of Agricultural Implements

aste and genius, no display can be perfect.

To the Manufucturers of Agricultural Implements and Tools, we would say, that interest and patriotism both combine to enjoin upon you the propriety of making a grand exhibition of your machinery of all kinds, as from our present advices, we are led to believe that the assemblage of farmers and planters, and of distinguished strangers from most of the States of the Union, will be greater than upon any former occasion here or elsewhere. We therefore say to the Agricultural Implement makers and Mechanics of the United States, make it a matter of pride to display your machinery at our exhibition, and vie with each other in having the best and largest assortment on the ground. Such ambition is laudable—is worthy of American genius, and should be cherished by the American heart.

La Editors with whom we exchange will confer a favor by copying this notice.

TITILLIAM TUCKER, MERCHANT TAILOR, (of the late firm of Lane & Tucker,) would call the attention of his friends and the public generally to his stock of Goods now opening, which has been selected by himself from the largest importing houses in New York, and by far the greatest variety and richest styles I ever offered in this city. Strangers are respectfully and earnestly solicited to give me a call and examine my stock before purchasing, as I am confident it will be to heir advantage.

heiradvantage.

And I would especially call the attention of officers, both of the army and the navy, to the fact that I am prepared to execute all kinds of uniforms, according to the late regulations, at the shortest notice, and at moderate prices, warranted, both in the cutting and making departments, equal to any establishment in this country.

W. T. tenders his sincere thanks to his nume ous friends for their long and continued patronage, and hopes, by the same diligence and attention to business, to merit a continuance of the same. All orders promptly executed. sep 20—3tw3w—d&trw

DUFF GREEN, BEN. E. GREEN, KICH'D. H. CLARKE

LEONARD SCOTT & Co., No. 54 Gold street New York, continue to publish the four leading British Cuarterly Reviews and Blackwood' Magazine; in addition to which they have recently commenced the publication of a valuable Agricultural work, called the

"FARMER'S GUIDE TO SCIENTIFIC AND PRACTICAL

"FARMER'S GUIDE TO SOIENTIFIC AND PRACTICAL AGRICULTURE,"

By HENRY STEPHENS, F. R. S., of Edinburgh, author of the "Book of the Farm," &c., &c.; assisted by John P. Norton, M.A., New Haven, Professor of Scientific Agriculture in Yale College, &c., &c. This highly valuable work will comprise two large royal octavo volumes, containing over 1,400 pages, with 18 or 20 splendid steel engravings, and more than 600 engravings on wood, in the highest style of the art, illustrating almost every implement of husbandry now in use by the best farmers, the best methods of ploughing, planting, laying, harvesting, &c., &c., the various domestic animals in their highest perfection; in short, the pictorial feature of the book is unique, and will render it of incalculable value to the student of agriculture.

of agriculture.

The work is being published in semi-monthly numbers of 64 pages each, exclusive 6f the Steel engravings, and is sold at 25 cents each, or \$5 for the entire work in numbers, of which there will be

at least twenty-two.
The British Periodicals re-published are as fol lows, viz:
The London Quarterly Review (Conservative),

THE EDINBURGH REVIEW (Whig),
THE NORTH BRITISH REVIEW (Free Church),
THE WESTMINSTER REVIEW (Liberal.) BLACKWOOD'S EDINBURGH MAGAZINE (Tory). Although these works are distinguished by the political shades above indicated, yet but a small Although these works are distinguished by the political shades above indicated, yet but a small portion of their contents is devoted to political subjects. It is their literary character which gives them their chief value, and in that they stand confessedly far above all other journals of their class. Blackwood, still under the masterly guidance of Christopher North, maintains its ancient celebrity, and is, at this time, unusually attractive, from the serial works of Bulwer and other literary notables, written for that magazine, and first appearing in its columns both in Great Britain and in the United States. Such works as "The Caxtons" and "My New Novel" (both by Bulwer, "My Peninsular Medal," "The Green Hand," and other serials, of which numerous rival editions are issued by the leading publishers in this country, have to be reprinted by those publishers from the pages o-Blackwood, after it has been issued by Messrs. Scot. & Co., so that subscribers to the reprint of that Magazine may always rely on having the earliest reading of these fascinating tales.

It is known to most of those to whom this paper will be sent, that the Senior Editor was Auditor of the Post-Office Department until the month of November last; with by far the larger portion of both postmasters and contractors, he has had direct intercourse, in person or by letter. He entered the department fourteen years since, and for many years previously, had been, first in the Wor Department, and subsequently in the Treasury. He has therefore had the best opportunities for understanding the arrangements of business in all the departments, and being acquainted with those who carry it on. Since his official connection with the Government ceased, he flatters himself he has preserved the respect and regard of most of the present incumbents of the departments, and is on becoming terms of intercourse and civility with Havana to the new and splendid steamship PA-CIFIC.

To secure freight or passage, apply at the office of the company, 77 West street, corner of Warren steet, to M. O. ROBERTS.

Special Notice is given to shippers by this line, that the company have prepared a form of bill of lading adapted to their business, which will be furnished to shippers on application at the company's office, and with which they are requested to provide themselves, as no other form will be signed by the agents of the company. Albills of lading must be signed before the sailing of vessel.
